

1. Contact Information

Name: Torgny Fornstedt (570331-5217)
University: Karlstad University
Dept. address: Analytical Chemistry / Department of Engineering and Chemical Sciences, SE-651 88
Karlstad, Sweden
Phone & Email: + 46 54 700 1960 / + 46 73 271 2890; Torgny.Fornstedt@kau.se

2. Education

1986 Master of Science in Pharmacy.
1992 PhD exam in Analytical Pharmaceutical Chemistry with the thesis "Distortions of Analyte Peaks due to Large System Peaks in ion-pair Adsorption Chromatograph" (supervisor: Prof. Douglas Westerlund).
1993, 1996 Postdoctoral fellow

3. Academic Promotions

1997 Promoted to Associate Professor (docent) at Uppsala University.
2007 Promoted to Professor in Analytical Biotechnology at Uppsala University.
2010 Full Professor in Analytical Chemistry at Karlstad University.

4. Employment (most recent at top)

2010- Employed as permanent Professor in Analytical Chemistry at Karlstad University.
2009 – 2010 Lectureship in Analytical Biotechnology at the department of Physical and Analytical Chemistry.
2000 - 2009 Lectureship and Director of courses (studierektor) at the Department of Surface Biotechnology, Uppsala University
1995 - 2000 Lectureship (lektor) in Analytical Pharmaceutical Chemistry, Uppsala University.
1994 Laboratory manager at Medical Products Agency (Läkemedelsverket).

5. Supervision of PhD Theses and Licentiate Theses

Main supervision if not otherwise stated

- 1) PhD exam year 2000, Gustaf Götmar: *Heterogeneous Surfaces in Chiral Chromatography* (main supervisor)
- 2) PhD exam year 2004, Johan Lindholm: *Development and Validation of HPLC methods for Analytical and Preparative Purposes*¹
- 3) PhD exam year 2005, Patrik Forssén: *Adsorption Isotherm Parameter Estimation in Non-linear Liquid Chromatography*²
- 4) PhD exam year 2007, Robert Arnell: *Development and Validation of methods for Characterization of Multi-component systems in Preparative LC*³
- 5) PhD exam year 2008, Jörgen Samuelsson: *Development of Methods for Phase System Characterization in Liquid Chromatography*⁴
- 6) Licentiate Exam 2010, Lena Edström: *Fundamental Studies on Peak Shapes in Liquid Chromatography*
- 7) Licentiate Exam 2011, Torgny Undin (VR-ID PhD student): *Development and improvement of methods for characterization of HPLC stationary phases*
- 8) PhD Exam 2014, Lena Edström: *Adsorption Studies with Liquid Chromatography: Experimental Preparations for Thorough Determination of Adsorption Data*⁵
- 9) PhD Exam 2015, Martin Enmark: *Fundamental Investigations of Supercritical Fluid Chromatography*⁶.
- 10) PhD Exam 2017, Dennis Åsberg: *Fundamental and Regulatory Aspects of UHPLC in Pharmaceutical Analysis*⁷

¹ Johan's thesis was awarded the 1st Phabian Award 2005 (The Pharmaceutical and Bioanalytical award, sponsored by AstraZeneca) for the best doctoral thesis of the year.

² Bertil Gustafsson at the Department of Scientific Computing was main supervisor; I was deputy supervisor.

³ Robert's thesis was awarded a shared 2nd position Phabian Award 2007 for the best doctoral thesis of the year.

⁴ Jörgen's thesis was awarded a shared 2nd position Phabian Award 2008 for the best doctoral thesis of the year.

⁵ My PhD student Lena Edström did her disputation in Uppsala University with Jonas Berquist as formal supervisor since I had already left to Karlstad but I was the scientific supervisor for all papers in the thesis.

⁶ Martin's thesis was awarded a shared 2nd position Phabian Award 2016 for the best doctoral thesis of the year.

⁷ Dennis thesis was awarded the 1st Phabian Award 2017 (The Pharmaceutical and Bioanalytical award, sponsored by AstraZeneca) for the best doctoral thesis of the year.

11) Licentiate Student in progress, Emelie Glenne: The project is in cooperation with Magnus Klarquist, at Medical Chemistry AstraZeneca R&D in Gothenburg.

6. Experience as Project Leader

I am leading the Fundamental Separation Science Group at Karlstad University (www.FSSG.se) that moved from Uppsala University to Karlstad University (KAU) in 2010. FSSG is a small, but internationally competitive, research group focusing on fundamental investigation of the molecular interactions in separation and Biosensor systems. The members of FSSG are from different backgrounds, e.g. chemistry, engineering and scientific computing, and have since 2010 produced > 50 articles in high-ranked scientific journals + > 20 lectures/key-notes at international conferences and several workshops.

I have been/am the project manager for the following KK projects:

- 1) KK HÖG 11 Ref # 202100-3120: Starting date 2012-01-15; Ending date: 2014-01-15; Participating companies: Eka Chemical AB Separation Products, Cambrex Karlskoga AB, AstraZeneca R&D Mölndal.
- 2) KK International Guest professor 13 Ref # 20140028: Starting date 2014-12-01; ending date 2015-11-30. Participating company: Medicinal Chemistry, AstraZeneca R&D (MCAZ), Mölndal, Sweden.
- 3) KK HÖG 14 Ref # 20140179: Starting date 2015-02-01; Ending date: 2016-12-31; Participating companies: AstraZeneca R&D Mölndal, Attana AB, Waters Nordic AB.
- 4) KK HÖG 15 Ref # 20150233: Starting date 2016-02-01; Ending date: 2017-12-31; Participating companies: AstraZeneca R&D Mölndal, Attana AB, Waters Nordic AB.
- 5) KK Synergy 16 Ref # 20170059: Starting date 2017-11-01; Ending date: 2020-12-31; Participating companies: AstraZeneca R&D Mölndal, Attana AB, Ridgeview Instruments AB, Akzo Nobel Pulp and Performance Chemicals AB. Participating Universities; Karlstad University, Linnaeus University and Örebro University.

7. Other information of Relevance

- According to Google Scholar (15 February 2018) my h-index was 29; number of citations 2616; citations per item $\cong 20$.
- I worked as director of courses at Uppsala University for many years and started several advanced and industry-oriented courses for the Civil engineering programs. The former chairmen of the programs Torgny Persson and Ulf Jönsson can be contacted for more information.
- I have developed and taught a supervisor course for engineering programs teachers involved in project courses at Uppsala University.
- I have with the Biotech industry and a project leader/communication consult (<http://www.leifandersson.se/vem.shtml>) developed a very successful project course for engineering students at Uppsala University <http://www.ingenjoren.se/2010/03/kaos-i-klassrummet-ska-ge-jobb/>
- I am reviewing around 10-15 articles a year for several highly rated separation journals
- I have been in the committee for several licentiate and PhD dissertations + being opponent several times the last 10 years
- I have been expert evaluator/ scientific reviewers for several professor promotions/employments.
- I have been member of various boards' at well-recognized international congresses in over area during the last years and was member of the VR NT-D4 panel 2011, the NT-17 2013 and 2014.
- Have held a full day workshop at AstraZeneca in January 2017, on how to implement the findings in our joint KK HÖG projects, for more than 70 of their senior scientist.
- I was a member of the scientific committee at Euroanalysis 2017. <http://euroanalysis2017.se/>

8. Relevant Scientific publications

- 1) Combining Chemometric Models with Adsorption Isotherm Measurements to Study Omeprazole in RP-LC by D. Åsberg, M. Leško, J. Samuelsson, A. Karlsson, K. Kaczmarek and T. Fornstedt *in* Chromatographia October 2016, Volume 79, Issue 19, pp 1283–1291.
- 2) Evaluation of scale-up from analytical to preparative supercritical fluid chromatography by M. Enmark, D. Åsberg, H. Leek, K. Öhlén, M. Klarqvist, J. Samuelsson and T. Fornstedt *in* Journal of Chromatography A Volume 1425, 18 December 2015, Pages 280–286.
- 3) Method transfer from high-pressure liquid chromatography to ultra-high-pressure liquid chromatography. II. Temperature and pressure effects by D. Åsberg, J. Samuelsson, M. Leško, A. Cavazzini, K. Kaczmarek, T. Fornstedt *in* Journal of Chromatography A Volume 1401, 3 July 2015, Pages 52–59.
